

About Us

AWS Cloud Engineering & Consulting

Caylent is a cloud-native services and consulting company that helps organizations bring the best out of technology using AWS. We work with customers to build, scale, and optimize modern cloud solutions using deep subject matter expertise to deliver world-class outcomes through an agile co-delivery model.

Our Services

Moving from Ideas to Impact

Artificial Intelligence: Reduce experimentation and accelerate AI adoption with Caylent and AWS AI frameworks

Application Modernization: Modernize legacy applications with containers and serverless technologies

Cloud-Native App Dev: Build modern applications with cloud-native technologies and architectures

Data & Analytics: Develop modern, well-governed data platforms that operationalize data

DevOps: Adopt modern tooling and processes for automation, resiliency, and velocity

Migration: Identify the right path and accelerate success using the AWS MAP Framework

Security & Compliance: Improve risk management with cloud-native security tools and compliance controls

Caylent Catalysts™

Strategy and implementation packages designed to jumpstart cloud initiatives

AWS Foundations & Migrations

- AWS Graviton Migration Strategy
- Enhanced AWS Control Tower
- AWS Control Tower

Artificial Intelligence & MLOps

- ML Operations with SageMaker
- AWS Generative AI Flight Plan
- Generative AI Knowledge Base
- Generative AI Ideation Workshop
- Generative AI Strategy
- MLOps Strategy

Data Modernization & Analytics

- Data Modernization Strategy
- Serverless Data Lake

Cloud Native App Development

- Serverless App Dev

Infrastructure & DevOps Modernization

- Disaster Recovery Strategy

Service Delivery Designations

- ✓ AWS Graviton
- ✓ Amazon EKS
- ✓ AWS Control Tower
- ✓ Amazon OpenSearch
- ✓ AWS Glue
- ✓ Well-Architected Partner
- ✓ Amazon EC2 for Windows Server

Competencies

- ✓ Migration Services
- ✓ Data & Analytics
- ✓ DevOps Services
- ✓ SaaS Services
- ✓ Healthcare
- ✓ Public Sector
- ✓ Financial Services
- ✓ Networking
- ✓ SMB
- ✓ Generative AI

Healthcare & Life Sciences

Care Logistics leverages AWS BLOps and CI/CD to improve operational insights, ultimately eliminating 6 months of manual FTE effort annually.

Media, Entertainment & Gaming

ThriveFantasy leveraged AWS to improve infrastructure scalability and build a secure, automated process for their organization to scale their business efficiently and securely.

Retail & Advertising Technology

Upside augmented their ML-based retail promotion and recommendation engine with MLOps on AWS and gained 50% better performance.

SaaS & ISV

Criteria migrated from Snowflake to AWS, reduced data infrastructure spend by 40%, and built a culture of data governance.

Financial Services

SigFig adopted AWS infrastructure to improve their app's scalability, resilience and security; saving costs while improving customer experiences.

Travel & Hospitality

Kibsi hosted its computer vision platform to simplify infrastructure management, scalability, and code deployment.

Transportation & Logistics

Daylight Transport modernized their data infrastructure on AWS to unlock business intelligence and gained 23X faster database performance.

Energy, Power & Utilities

BrainBox AI established AWS cloud-native foundations for generative AI, unlocking scalability and performance to fuel their growth.

✓ **9.5** Customer Satisfaction Score

✓ **83** Net Promoter Score

✓ **600+** AWS Certifications

"Caylent's engineers possess industry-leading expertise in generative AI enablement, and have helped us start development with this new technology very quickly. We have big goals for our generative AI capabilities and look forward to working with Caylent to realize our vision."

Jean-Simon Venne
CTO & Co-founder, BrainBox AI
