CAYLENT

Idea to Impact. Faster.

About Us
AWS Cloud Consulting & Engineering

Caylent is a cloud services and consulting company that helps organizations bring the best out of technology using AWS. We work with customers to build, scale, and optimize modern cloud solutions using deep subject matter expertise to deliver world-class outcomes through an agile co-delivery model.

Our Services
Moving from Idea to Impact

Artificial Intelligence & MLOps: Turn ideas into impact with advanced AI, LLM, & multi-modal approaches for business insights

Application Modernization: Modernize legacy apps with containers and serverless tech for enhanced scalability and cost savings

Cloud-Native App Dev: Create web and mobile apps with cloud tech and cost-efficient, scalable architectures

Data & Analytics: Build or modernize data platforms to turn data into actionable insights and ensure governance

Infrastructure & DevOps: Automate deployments, boost resiliency, and enhance security with modern DevOps tools and practices

AWS Foundations & Migration: Identify the right path, minimize downtime, and accelerate success using AWS MAP

Caylent Solutions

Adapt with Speed.

Strategy
Assess current and future states to design a roadmap aligned with business and technical goals

Planning
Develop an actionable implementation plan that outlines key initiatives and dependencies

Prototyping
Validate solutions through proof of value and technology tests to confirm value and feasibility

Execution
Deliver the solution with agility, upskilling your team and ensuring knowledge transfer for continued success

Caylent Catalysts™
AWS-powered accelerators that catalyze your cloud evolution, driving immediate innovation and long-term success

CAYLENT

Idea to Impact. Faster.

CARE LOGISTICS®
Healthcare | Data Modernization

Care Logistics utilized AWS BIOps and CI/CD to improve operational insights, ultimately eliminating 6 months of manual FTE effort annually.

THRIVE FANTASY
Media & Entertainment | Infrastructure & DevOps

ThriveFantasy leveraged AWS to improve infrastructure scalability and build an automated process for their organization to scale their business efficiently and securely.

upside
Retail & Ad Tech | AI & MLOps

Upside augmented their ML-based retail promotion and recommendation engine with MLOps on AWS and gained 50% better performance.

Criteria
SaaS & ISV | Infrastructure & DevOps

Criteria migrated from Snowflake to AWS, reduced data infrastructure spend by 40%, and built a culture of data governance.

SIGFIG
Financial Services | Infrastructure & DevOps

SigFig adopted AWS infrastructure to improve their app's scalability, resilience and security; all while saving costs and improving customer experiences.

kibsi
Travel & Hospitality | Infrastructure & DevOps

Kibsi hosted its computer vision platform to simplify infrastructure management, scalability, and code deployment.

DAYLIGHT TRANSPORT
Transportation & Logistics | Data Modernization

Daylight Transport modernized their data infrastructure on AWS to unlock business intelligence and gained 23X faster database performance.

BRAINBOX AI
Energy & Power | Generative AI

BrainBox AI established AWS cloud-native foundations for generative AI, unlocking scalability and performance to fuel their growth.
